

we train our nurses

so that they fit your bill;
prepping them for all clinical
settings and offering
continuing education
courses in all specialties.

BLS Healthcare Provider Course

is designed to teach the skills of CPR for victims of all ages, use of an automated external defibrillator and relief of foreign-body airway obstruction. It is intended for participants who provide health care to patients in a wide variety of settings.

The Heartsaver AED Course

Heartsaver AED Course teaches the basic techniques of adult CPR and how to use an AED. Students also learn about using barrier devices in CPR and giving first aid for choking.
